SUBURBAN CABLE NETWORK, INC.

The Honorable Body acknowledged the attendance of SCNI top management members who appealed for their cause to be further heard in view of the Council's withdrawal of their privilege to establish, operate and maintain a cable T.V. system in the municipality.

Messrs. Reuel Dominguez, Pat Manlangit and Ramon Magsaysay, Jr., SCNI President, Engineer and Director, respectively, took turns in explaining to the Body the causes of the project's delay, including the hassle of their pole agreement with Ferplast and the change of cable design because of their desire to increase their service channels from 20 to 77. They added that they have so far installed 30 trunk lines from Aniblan to Ligas.

The Council then recalled SCNI's commitments and covenants with the municipality and the NTC none of which had been complied with or met by the company. Wherefore, coupled with an accomplishment of only 30 trunk lines having been installed since June 24, 1992 when it secured its Provisional Authority from the NTC, the Body regretfully informed the SCNI representatives present that it cannot reconsider its position contained in Resolution No. 106-5-94.
