#### COMMITTEE REPORT No. CR-138-S-2022

Now that we felt what climate change can do to our lives, especially after a disaster, no matter what type it is (Natural or Man-Made Disaster) we face the danger, physical injuries or even death. We may also lose our homes, possessions, and our community. Such stressors place you at risk for emotional and mental health problems.

A post disaster assessment meeting is needed to pulls together information on the socio-economic aspects of damages, effects (economic losses, disaster caused changes in service delivery, governance and risk), impacts and needs, as well as highlights recovery priorities from a human recovery perspective.

With the earnestly urged approval of this resolution will greatly benefit the residents of the city.

#### RECOMMENDATION:

In view of the foregoing, the Committee respectfully recommends for the **APPROVAL** of the request city resolution.
