The Team Leader shall choose who among the Team members shall conduct the home visitation. **Provided that:** at least one doctor and one nurse shall remain in the mobile clinic and the Team Leader shall request police assistance or assistance from the barangay in case the safety of Team Leaders or of the patient is in peril during the conduct of the home visitation. **Provided further that:** Team members who shall conduct home visits shall also interview and — if needed — treat the other residents of the said house and practice preventive medicine for the purpose of preventing disease, disability, and death. **Provided lastly that:** the various data gathered from all persons residing in the same house shall be encoded in the Electronic Medical Records of the OCHS.

7.7. Mandatory Follow-up Visits. The STRIKE Teams are hereby mandated to conduct follow-up visits to their patients, determine the efficacy of the treatment regimens prescribed to them, revise the said regimens if needed, and recommend any additional medical interventions to the City Health Officer such as, but not limited to, hospitalization or surgery or referral to diagnostic and laboratory examinations at PhilHealth accredited healthcare facilities within the City of Bacoor.

7.8. Inter-Department Access to EMR. 7.9. Non-Replacement of Ongoing Treatment for Pre-Existing Conditions. STRIKE Team members must explain to the community and to the patients that none of the treatment regimens to be provided by virtue of this ordinance shall replace ongoing treatment protocols for pre-existing health conditions and neither can STRIKE Team members replace the personal physicians or health providers of the said patients.

7.10. Focus on Preventive Care. STRIKE Team members must focus on preventive care by: [1] educating patients on how to take care of themselves and on topics such as the value of weight goal setting, eating a balanced diet, the

7.11. Safety First. The STRIKE Team members are hereby authorized to prioritize their safety at all times. They shall be empowered to refrain from treating or to discontinue ongoing treatment if they are being harassed, threatened, or abused by any patient or by any person in the host barangay.

7.12. Express Consent. The STRIKE Team members must obtain the written consent of patients who will undergo home based primary care by requiring them to— or their adult relatives or caregivers — sign a PARTICIPATION AGREEMENT to home based primary care (the "PARTICIPATION AGREEMENT") which shall provide the following minimum provisions:
